Chief, Engineering Division, OC

Release of Information on Contract RD-71 - [ ]                               25X1

REF    :  Letter to Contracting Officer, from [                    ] same subject    25X1
          of 1 November 1957.

1.  The request of the contractor to present a paper at the 1958
Transistor and Solid State Device Conference has been carefully examined.
It is noted that the attachment to the [      ] letter is the abstract of     25X1
the paper to be presented. Based on an analysis of the abstract a
conditional approval is granted for presentation of this paper. Our
final approval will be withheld until after we examine the complete
paper.

2.  The circumstances leading to our decision to release this
information include the fact that [                                    ]        25X1
have each prepared a thesis leading to a Masters degree based upon the
development of this receiver. We granted approval for this work. Two
receivers developed under this program have been released to the Air Force.
One receiver developed under this program has been released to the [     ]     25X1
[      ] complete with progress reports. In each instance, there were no        25X1
restrictions placed upon the information other than the classification
of Agency association.

3.  It is suggested that the contractor be advised of a conditional
approval and that they be requested to submit a copy of the complete paper
for examination.
